RULING ON ENTITLEMENT¹

On May 23, 2022, Kevin Scherer filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that his receipt of an influenza (“flu”) vaccination on October 2, 2019, caused him to develop Guillain-Barré Syndrome (“GBS”), a Table injury. Petition at 1, 11. Petitioner further alleges that he suffered the residual effects of his vaccine injury for more than six months. Petition at 10. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On April 18, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Specifically, Respondent states that “petitioner has satisfied the criteria set forth in

¹ Because this unpublished Ruling contains a reasoned explanation for the action in this case, I am required to post it on the United States Court of Federal Claims’ website in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2012) (Federal Management and Promotion of Electronic Government Services). **This means the Ruling will be available to anyone with access to the internet.** In accordance with Vaccine Rule 18(b), Petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

the Vaccine Injury Table ('Table') and the Qualifications and Aids to Interpretation ('QAI'), which afford petitioner a presumption of causation if the onset of GBS occurs between three and forty-two days after a seasonal flu vaccination, and there is no apparent alternative cause." *Id.* at 8. Respondent further agrees that "records show that petitioner timely filed this case, received the flu vaccine in the United States, and satisfied the statutory severity requirement by suffering the residual effects or complications of GBS for more than six months after vaccine administration," and thus, Petitioner has satisfied all legal prerequisites for compensation under the Act. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
